CULTURAL COMPETENCE OF PROVIDERS

An important goal for Sandhills Center is to make sure our network of providers match our local communities. Allowing members and their families to make their own choices is what shapes the service system. Sandhills Center and its providers believe in cultural competence. This goal means more than just knowing about the different groups in our area. Knowing about the behaviors, attitudes, and beliefs of people make the service system work better.

If you have special cultural needs, let your provider know.

PLANNING AHEAD

You have the right to make plans for your treatment in advance by creating an Advance Directive. An Advance Directive is a written, legal document that states your wishes for your health care if ever you are no longer able to make decisions for yourself. There are three types of advance directives.

- Psychiatric Advance Directives or the Advance Directive for Mental Health Care
- Health Care Power of Attorney
- Living Will

PSYCHIATRIC ADVANCE DIRECTIVES:

The Psychiatric Advance Directive (PAD) or the Advance Directive for Mental Health Care is a legal document. This form gives the instructions for mental health treatment you would want to receive if you are in a crisis and unable to make decisions for yourself.

Your service provider or care coordinator can also help you in writing this plan. The Psychiatric Advance Directive can include your wishes about:

- What you think helps calm you.
- How you feel about seclusion or electric shock treatments.

- What medications you do not want to take.
- Which doctor you want to be in charge of your treatment.

To find more information and forms for Advance Directives:

- Call Advance Healthcare Directive Registry- 919-807-2167
- Website:
<https://files.nc.gov/ncdma/documents/files/advancedirectexpanded.pdf>
- Write to: Advance Health Care Directive Registry P.O. Box 29622, Raleigh NC 27626-0622

HEALTH CARE POWER OF ATTORNEY

A Health Care Power of Attorney allows you to pick someone who makes decisions for you if you are unable to make your own choices about treatment.

LIVING WILL

A Living Will is a document that tells others what kind of care you want, or if you want to die a natural death if you are incurably sick and cannot receive nutrition or breathe on your own.

All three of these documents must be written and signed by you while you are able to understand your condition and treatment choices, and are able to make your wishes known. Two qualified people must witness all three types of Advance Directives. All three of these documents must be notarized.

WHAT DO I DO WITH MY ADVANCE DIRECTIVES?

Be sure to keep your copies in a safe place and give copies to:

- Your family
- Your treatment team
- Your doctor
- The hospital where you are likely to receive treatment

You can also have your Advance Directive filed in a national database or registered with the North Carolina Advanced Health Care Directive Registry, which is part of the Department of the North Carolina Secretary of State (www.sosnc.com).

There is a \$10.00 fee to register. This includes the registration, a revocation form, registration card and password. You can use the revocation form at any time if you change your mind and your directives.

CAN A PROVIDER REFUSE TO FOLLOW MY ADVANCE DIRECTIVE?

Your provider must follow your instructions unless:

1. It is the provider's opinion that the directive is not of benefit to you according to accepted community practice standards of treatment;
2. Your directives are not available;
3. Your directives violate the law;
4. You are involuntarily committed to a 24-hour facility and the treating physician and director of clinical services determine that your condition is not likely to improve or you are likely to harm yourself or others before you improve.
5. The directive is not an appropriate treatment in the case of an emergency and may endanger your life or health.

If your provider determines part of your Advance Directive cannot be followed, because of the above reasons, all the other parts of your instructions must be followed.

HOW LONG DO MY ADVANCE DIRECTIVES STAY ACTIVE?

Your Advance Directives are active until you cancel them. You may cancel or change your Advance Directives at any time unless you have been declared incompetent. If you cancel or change your Advance Directives, be sure to tell anyone who has a copy about the change.

If you believe your Advance Directives instructions were not followed, you may file a grievance at 919-807-2167, or contact our call center at 1-800-256-2452 for assistance.

NC Innovations Waiver Individual Budget Appeals

All members who receive NC Innovation Waiver funding will be assigned an Individual Budget. This Base Budget is used during the member's Individual Support Plan planning. The Base Budget is not a limit on the amount of services a member and/or legally responsible person can request or receive.

1. If a member or legally responsible person disagrees with the Base Budget or Individual Budget Category Level, they may file a grievance.
2. The member or legally responsible person may file a grievance by phone, in person or in writing.

3. A Sandhills Center staff will respond within five days after we receive the grievance.

If you have questions about your Individual Budget or this process, call your Innovations Care Coordinator.

UTILIZATION MANAGEMENT, SERVICE REQUESTS, AND APPEALS

Utilization Management is the part of Sandhills Center that reviews the service requests from providers. Utilization Management reviewers are licensed clinicians with special training in reviewing service requests.

Services are reviewed based on:

- Is it the service you need?
- Is it the right amount?
- Is it for the right length of time?

Utilization Management reviews your need to see if it is medically necessary, which means you need the service to improve your condition. If the Utilization Management reviews the service request and it is approved, you will receive the service.

Utilization Management reviewers do not receive rewards or bonuses for denying services.

WHAT IF MY MEDICAID SERVICE IS NOT APPROVED?

If your service or request is denied, reduced, suspended, or terminated, you have the right to appeal the decision. If your service request was not approved, you will receive a letter explaining the decision. Instructions on how to appeal the decision are included in the letter.

The letter includes information on these important topics:

- Who has the right to appeal
- Time limits for requesting an appeal
- Who to contact to file an appeal
- How to file an appeal

IMPORTANT: The first appeal you file must be with Sandhills Center.

This appeal is called a reconsideration.

You or your representative have the right to request a reconsideration. You may ask a provider to act on your behalf to file a reconsideration. If you choose to have someone assist you with the reconsideration, Sandhills Center will request a signed consent form to share clinical information.

Filing an appeal will not be held against you if you request services in the future.

The letter you receive will explain the time limits for filing your reconsideration. *Please read it carefully.*

You have up to sixty (60) days from the mailing date of the letter to file a reconsideration. You have the right to see information that was used in making the denial decision. You can submit new information that will help the reviewer better understand your condition and why you need the requested services.

Sandhills Center will process your reconsideration and notify you of the decision within 30 calendar days. If your health and safety is at risk, you may request an urgent reconsideration verbally or in writing. This urgent reconsideration is called an expedited reconsideration. Sandhills Center will process the expedited reconsideration and provide a verbal response within 72 hours of your request. A written response will be mailed within three (3) calendar days of your request. Asking for an expedited appeal will not be held against you.

If you need more time for your reconsideration, you may request a 14-day extension. During those 14 days, you may provide additional information related to the appeal. Sandhills Center can also request a 14-day extension to gather additional information that may help your request. Sandhills Center will provide you with a letter within two calendar days if we decide to extend the timeframe. You have the right to file a grievance if Sandhills Center extends the timeframe and you do not agree with the extension.

If you disagree with the reconsideration decision, you can request a State Fair Hearing with the Office of Administrative Hearings (OAH). This appeal must be requested within 120 days of the mailing date on the decision letter. You will be offered a chance for mediation. If you are not happy with the mediation result, you can present your case to an administrative law judge. You or anyone you choose can represent you during a mediation or in front of the administrative law judge. Mediations and hearings are scheduled at your convenience. They typically take place over the phone, but you can request that the hearing be held in person. Mediations will be over the phone.

Getting Services During the Appeal:

- You may ask for your services to continue during the reconsideration and State Fair Hearing or you may make a new request for services. If the administrative law judge agrees with Sandhills Center's decision, you may be asked to pay for the costs of these services.

We can help you file an appeal. Call the Utilization Management Department at 1-800-241-1073.

NON-MEDICAID (STATE-FUNDED SERVICES)

If your provider's request for state-funded services is denied, reduced, suspended, or terminated, and you disagree, you have the right to appeal the decision. You will receive a letter explaining the reason for the denial, reduction, suspension, or termination of the service. Instructions on how to appeal the decision will be included in the letter. If you want to appeal the decision, but don't know how, Sandhills Center staff can help you. You can receive help in filing your appeal by calling the Utilization Management Department at 1-800-241-1073.

IMPORTANT:

You have up to fifteen (15) working days from the date of the letter to file your appeal of a denial of state-funded services.

Care Coordination

Care Coordination is a part of Sandhills Center that helps people with the highest needs get the right care.

When your needs put you in high-risk positions (such as repeated crises, hospitalizations, homelessness, imprisonment and/or being between services), Care Coordinators take special care to link you with the special services you need. By working with you and your provider(s), Care Coordinators help by making referrals or suggesting the use of other resources.

Care Coordinators are available to help people in the groups:

1. Adults and children with Intellectual/Developmental Disabilities (I/DD)
2. Adults and children with Mental Health/Substance Use Disorder (MH/SUD) issues
3. Children in need of placement in Level III Group Homes
4. Adults with Serious Mental Illnesses who are in or are going to be placed in an Adult Care Home
5. Children who have both Intellectual/Developmental Disabilities and mental health issues

Care Coordinators do the following:

- Identify members who fit into one of the groups listed above
- Get members with the highest needs linked to Care Coordination
- Get members with the highest needs linked with a clinical home and community-based intervention services
- Pinpoint the services that will best meet the person's needs
- Look at your treatment plan to make sure the plan is correct
- Have conversations with providers about ways your treatment plan can be made better

- Bring together services for you across different agencies including primary care
- Measure effects of help and treatment provided
- Make sure that your medical care is talked about between the providers
- Make sure members who are well connected to a clinical home do not make repeated use of crisis services.

NOTICE OF PRIVACY PRACTICES

All new enrollees receive a copy of our Notice of Privacy Practices. For information about the Notice of Privacy Practices, please see the Sandhills Center website under “For Consumers and Families” to read the Notice.

You can also receive a copy of the Notice of Privacy Practices by calling the Sandhills Center Call Center at 1-800-256-2452. A Customer Services staff member will mail you a copy of the notice.

IS MY BEHAVIORAL HEALTH INFORMATION PRIVATE?

Your behavioral health information (electronic and written) is private and confidential. Your provider may ask you to sign a release of information authorization to share your behavioral health information with others who are working with you. In special situations, your information may be released without your permission. Examples of these are:

- A court order to release your record.
- If you are in jail and it has been determined that you are in need of mental health or substance use disorder services, or intellectual/developmental disabilities support.
- To a physician, or other health care provider who is providing emergency medical services.
- Coordination of your care with other area or State facilities when it has been decided that disclosure of that information is needed to ensure appropriate and effective care.
- If you appear to law enforcement personnel to be a danger to yourself or others.
- The reporting of suspected abuse, neglect, or exploitation of a child or disabled adult.
- If there is legal action related to your treatment, our outside attorneys may review the record.
- If your treatment records must be reviewed or audited to abide by government regulations.

If you feel that your right to confidentiality has been violated, you have the right to file a grievance. You may call the Call Center at 1-800-256-2452. You also have the right to ask someone you trust to assist you in making this grievance.
