

**NC INNOVATIONS MEDICAL ASSESSMENT**

<b>Individual's Name:</b> _____		<b>Waiver:</b> _____	
<b>I. System Disorder/Name of Condition</b>		<b>Circle One:</b>	
a. Respiratory	Yes	No	
b. Cardiovascular	Yes	No	
c. Gastro-Intestinal	Yes	No	
d. Genito – Urinary	Yes	No	
e. Neurological	Yes	No	
f. Other	Yes	No	
<b>II. History of Seizures (Type)</b>			
Simple Partial (Simple motor movements/no awareness loss)	Yes	No	
Complex Partial (Loss of Awareness)	Yes	No	
Generalized – Absence (petit mal)	Yes	No	
Controlled with medication	Yes	No	
Other: _____			
Seizure Frequency per month: _____			
<b>III. Disability</b>			
Cerebral Palsy	Yes	No	
Mental Illness	Yes	No	
Other Related Condition: _____			
<b>IV. Sensory/Motor Limitation</b>			
Hearing		Yes	No
Vision		Yes	No
Ambulatory		Yes	No
Fine Motor Deficit		Yes	No
Major Motor Deficit		Yes	No
Communication		Yes	No
<b>V. Treatment Modality</b>			
Physical Therapy		Yes	No
Occupational Therapy		Yes	No
Speech Therapy		Yes	No
Special Diet Type: _____		Yes	No
Other: _____		Yes	No
(IV, Tube Feed, O2, Catheter, etc.) Supportive			
Protection Devices: _____		Yes	No
<b>VI. Medications:</b>			
Individual can self medicate:		Yes	No
<b>Medication</b>	<b>Dosage/Route/Frequency</b>	<b>Related Diagnosis</b>	
<b>VII. Physician Signature</b>			
_____ Physician Name (Print)	_____ Physician Signature	_____ Date	

**To be Medicaid certified at the ICF-IID level-of-care, the individual must:**

Require active treatment necessitating the ICF-IID level of care. (Active treatment refers to aggressive, consistent implementation of a program of specialized and generic training, treatment and health services. Active treatment does not include service to maintain generally independent clients who are able to function with little supervision or in the absence of a continuous active treatment program.)

**AND**

Have a diagnosis of intellectual disability, or a condition that is closely related to IID:

- A. Intellectual Disability is a disability characterized by significant limitations both in intellectual functioning and adaptive behavior as expressed in conceptual, practical and social skills. The condition originates before the age of 18.
- B. Persons with closely related conditions refer to individuals who have a severe, chronic disability that meets **ALL** of the following conditions:
  1. Is attributable to:
    - a. cerebral palsy or epilepsy or
    - b. any other condition, other than mental illness, that is closely related to intellectual disability because this condition results in impairment of general intellectual functioning or adaptive behavior similar to intellectual disability persons;
  2. It is manifested before the person reaches age 22;
  3. Is likely to continue indefinitely; **and**
  4. It results in substantial functional limitations in three or more of the following areas of major life activity:
    1. self-care (the ability to take care of basic life needs for food, hygiene, and appearance)
    2. understanding and use of language (the ability to both understand others and to express ideas or information to others either verbally or nonverbally)
    3. learning (the ability to acquire new behaviors, perceptions and information, and to apply experiences to new situations)
    4. mobility (ambulatory, semi-ambulatory, non-ambulatory)
    5. self-direction (managing one's social and personal life and have the ability to make decisions necessary to protect one's self)
    6. capacity for independent living (age appropriate ability to live without extraordinary assistance)
